101CON

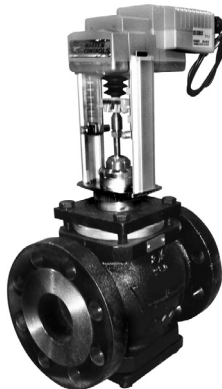

Self-Operating Temperature Regulator

- No External Power Source Needed
- Indicating Actuator
- Preferred Choice of OEM's, Mechanical Contractors, and Specifying Engineers

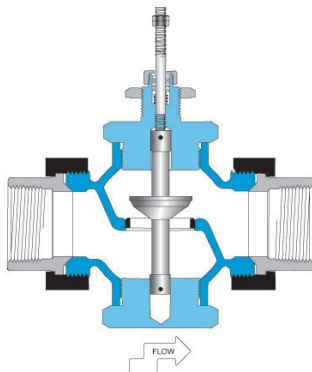

Pneumatic Control Valves

- Compact or Heavy Duty
- On/Off, Throttling, and Equal Percentage Control
- Positioner Available with Heavy Duty Version

Electric Control Valves

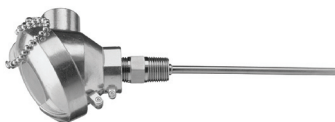

- Fail Open or Closed
- 2-10 Vdc or 4-20 mA Input
- 24 Vac or 24 Vdc Power Supply

Valve Body Options

- 1/2" to 6" Pipe Size
- Bronze, Cast Steel, Cast Iron or Stainless Steel Valve Bodies
- Stainless Steel Trim
- Single/Double Seat & 3-Way Valve

Sensors & Controllers

Thermocouples and RTD's

- Type J or K Thermocouples
- 100 or 1000 ohm RTD's
- 2 1/2" to 12" Stainless Steel Stems

Pressure and Liquid Level Transmitters

- 30" Hg vac thru 60,000 psi ranges
- 4-20 mA or 0-10 Vdc output
- +/- 0.5% full scale accuracy
- Stainless Steel Wetted Parts

Electronic PID Controllers

- Auto-Tuning
- 1/4 DIN, 1/8 DIN, or 1/16 DIN
- Thermocouple, RTD, mV, mA, or Vdc inputs
- 4-20 mA, 0-10Vdc, On/Off Contact, SSR Driver Outputs
- Single or Dual event Outputs and Alarms

Accessories

- I/P Electro-Pneumatic Transducer
- Digital Indicator
- Air Filter/Regulator
- Solid State Relays

Industrial, Commercial and HVAC Applications

- Boilers
- Hot or Chilled Water Tanks
- Steam for Heating or Process
- Food Processing and Pressure Cooking
- Mills
- Laundry
- Heat Treating
- Cooling for Compressors, Welding, Turbines
- Plating
